

30CL-1 / 30CL-2 BEEF HOCK CUTTER BLADE GRINDER

Model 161 BG

**The Jarvis Model 161 BG -
for perfect 30CL-1 / 30CL-2 blade
sharpening.**

JARVIS

- Accurately sharpens part number 1023161 blades according to original design specifications - reduces material removal for longer blade life.
- Sharpens blade on tool. Removal of blade is unnecessary.
- Precision blade grinding reduces operator fatigue and equipment wear and tear.
- Sharpens both cutting edge and relief angle.
- Accurately regrinds badly damaged or chipped blades like new.
- The Model 161 BG produces perfect blades every time - nothing else is required.
