

PICKING FINGER INSTALLER

Model PFI-1

The Jarvis Model PFI-1 - pneumatically powered picking finger installer.

JARVIS

- Eliminates rubber finger damage.
- More versatile than other finger installers - will install any shape finger up to 5.5 in (140 mm) long.
- More maneuverable - nearly 3 inches (76 mm) shorter than competitive models.
- Stainless steel and aluminum construction - long wear and no oxidation.
- More power - larger piston.
- No operator fatigue - light trigger pull.
- More durable - finger clamps operate on rollers to prevent wear. Clamps individually mounted for double pulling strength.
- Repairable trigger valve.
- No piston springs - air power both directions.

DURABLE - MANEUVERABLE - POWERFUL

PICKING FINGER INSTALLER

Model PFI-1
